ONLY GREEN COLOR

```python
import cv2
import numpy as np

cap = cv2.VideoCapture(0)

while True:
    _, frame = cap.read()
    hsv_frame = cv2.cvtColor(frame , cv2.COLOR_BGR2HSV)

    #green color
    low_green = np.array([25 , 52 ,72])
    high_green = np.array([102 ,255 ,255])
    green_mask = cv2.inRange(hsv_frame , low_green , high_green)
    green = cv2.bitwise_and(frame , frame , mask=green_mask)

    cv2.imshow("Frame" ,frame)
    cv2.imshow('Green' , green)

    key=cv2.waitKey(1)
    if key ==27:
        break
```
